

Drive-in/Outdoor Worship Information

For those intending to worship in their car or outside of the lawn, please see below for some helpful information before you arrive. The worship service will be occurring outside and live-streamed inside and to the church website.

- Do **arrive early** and be patient as it may take a moment to get everyone parked.
- Please follow the directions given by the usher teams who will guide you to your parking location. Ushers will be located at the main entrance, at the entry points to the north parking lot, and at your final parking destination. **Be advised that we will utilize every-other parking spot, and that you may be required to back into a parking space.**
- The ushers located at the main entrance to the church **will direct you where to park.** This is important so that we fill each side of the main lot equally.
- Please **bring your preprinted bulletin** from home or use your electric device to follow along with the service. We will only have a limited number of bulletins available.
- Make sure to **bring bread or crackers** and **wine or juice** for in-car Holy Communion. Remember you will need to eat consecrated elements prior to leaving the church lot, so bring just what you can consume.
- If you roll down your window or exit your car you must be **wearing a mask.**
- If you wish to sit outside on the lawn, please **bring a chair, blanket, and a portable radio.** Those sitting outside will need to wear a mask.
- After the service, the ushers will dismiss cars beginning with those parked on the west side of the lot and moving east. We asked that everyone exit using the west side drive so that we have unidirectional traffic flow. Please depart the church grounds using the normal *exit* driveway.
- We ask that you remain in your car and tune your radios to **FM radio frequency 87.9.** It may be advised to review the accessory setting for your car so that only the radio is pulling power from the battery if your car is not running. It may be wise to start your car for a brief period of time during the service to charge your car battery. The ushers have jumper cables available and are willing to assist if you do encounter a problem.
- Offering stations will be available at each exit point and will be clearly marked. Simply drop your offering envelope into the collection boxes on the way out.
